Statement of Senate Democratic Leader Mark Schauer (D-Battle Creek) on Today's Senate Approval of Legislation to Make Michigan Workplaces Smokefree

"Creating smokefree workplaces in Michigan may be the most important public health issue we address this year. It will help protect workers and families from harmful secondhand smoke and reduce long-term health care costs to the state and to businesses. Research has also shown that in other places that have gone smoke free the economy does not suffer as some have argued. I hope this legislation moves forward swiftly and the Governor has the opportunity to sign it into law as soon as possible."
